

NYLATRON® DB+ DOCKING BUMPERS

The perfect protection for
any high traffic loading dock

NYLATRON DB+ DOCKING BUMPERS

NYLATRON DB+ is the ideal solution for docking bumpers in the logistics and distribution industries. NYLATRON DB+ docking bumpers are the perfect protection for any high traffic loading dock and replaces moulded rubber and steel plated versions.

CHALLENGES

Moulded rubber easily breaks and therefore causes damage to your loading dock, equipment and building. Metal plates cause major damage to your truck and can cause injuries due to sharp edges.

QUADRANT'S SOLUTION

NYLATRON DB+ docking bumpers protect your loading bay and vehicles from damage. Docking bumpers give you a high resistance to wear and abrasion and therefore a longer life time. They are immune to all weather conditions.

Just mount and forget them!

QUADRANT

You inspire ... we materialize®

Key Benefits at a Glance:

- No more broken, damaged or missing docking bumpers
- Exhibits high resistance to wear and abrasion
- No warp and dangerous sharp edges
- Longer product life time
- Extreme low coefficient of friction reduces hang-ups of your vehicle
- Lower weight than traditional docking bumpers
- Maintenance free solution
- Lower total delivered costs
- Aesthetically more pleasing

Product Availability:

- Quadrant EPP offers most common rectangular sizes of docking bumpers.
- Special shapes can be custom designed to meet specific needs.
- Products can be made in either black (standard) colour or bright yellow colour.
